Gala_Layo

AI-Driven Cybersecurity Solutions

Gala_Layo is dedicated to harnessing the power of the **latest AI technologies** to transform your cybersecurity defenses. Our team integrates AI into our solutions, we provide smarter, faster, and more effective security measures tailored to the ever-evolving threat landscape.

Core Competencies

Risk Assessment
A cybersecurity risk assessment is a systematic process used to identify, evaluate, and prioritize potential threats and vulnerabilities that could compromise an organization's digital assets, systems, and operations. It provides organizations with a clear understanding of their cybersecurity posture, enabling them to take proactive steps to protect against risks and mitigate the potential impact of cyberattacks.

Vulnerability Assessment and Penetration Testing (VAPT)
Identify weaknesses in your systems, networks, and applications through comprehensive vulnerability assessments and simulated cyberattacks. Penetration testing helps uncover vulnerabilities before they can be exploited by malicious actors.

Threat Intelligence and Detection
Threat detection involves continuously monitoring and analyzing network traffic, system activities, and user behaviors to identify signs of malicious activity or security breaches. Effective threat detection helps organizations identify potential threats in real-time, allowing for swift action to mitigate risks.

Incident Response and Recovery
Incident response is the process of managing and addressing security incidents to minimize their impact and restore normal operations. An effective incident response plan ensures that organizations can quickly and efficiently respond to cyber threats.

Managed Cybersecurity Services
Managed Cybersecurity Services are designed to provide end-to-end protection, continuous monitoring, and expert guidance, allowing you to focus on your core business while we safeguard your digital environment.

RiskGuard Platform
RiskVision Platform, a tailored solution for cybersecurity insurance providers offering risk assessments, predictive analytics, and incident response planning.

Differentiator

Gala_Layo stands out in the cybersecurity industry due to our combined and extensive experience working with federal agencies, state and local municipalities, and major enterprises across multiple sectors. Our team's deep expertise in government regulations, national security, and enterprise cybersecurity uniquely positions us as a trusted leader in the field.

AI-Driven Security & Automation
Cost-Effective & Scalable Solutions
Compliance & Regulatory Expertise
Industry Expertise & Top Cybersecurity Talent
Customer-Centric & Compliance-Focused Approach

Company Snapshot

CAGE: 9YNMO   **UEI:** L8FJUPC4ZJU3
Business POC: Dwight Grupp
Phone: (703) 463-8418
E-Mail: dwight@galalayo.com
Address: 8401 Mayland Dr, Ste S, Richmond, VA 23294
Work Area: Nationwide
Socio Economic: Small Business
Security Clearence: Top Secret

Past Performance
